DETAILED ACTION

DETAILED ACTION

Receipt of applicants' amendments and remarks submitted February 28, 2004 is acknowledged.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-6, 8, 17-21, 25-26 and 37 drawn to a method for treating non-dementia mental disorders, and the composition employed therein.

Group II, claim(s) 1-5, 6, 8, 17, 18, 22, 23, 26 and 37 are drawn to an method for treating neurodegenerative disorders, and the composition employed therein.

Group III, claims 1-5, 17, 18, 24, 26, 37 are drawn to an method for treating disorders other than those defined in groups I and II, and the composition employed therein.

2. The inventions of Groups I - III represent separate and distinct methods. They differ with respect to host, method steps and final results. Particularly, they are directed to two distinct

groups of mental disorders which involve different etiology, symptoms. They therefore have different issues regarding patentability and enablement and represent patentable distinct subject matter, and lack a common core technical feature.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
